LONGBOAT KEY

The casual yet sophisticated styling of Longboat key is born of clean contemporary lines, bold architectural details, and a warm sundrenched finish. Crafted from Hickory, designs feature distinctive metal accents and custom hardware, creating a fresh and relaxing environment for the office or media room.

FINISH AND HARDWARE

Crafted from Hickory veneer, the Longboat Key finish is a warm sundrenched sienna coloration.

A unique wrapping of faux leather accents the burnished brass finish on custom drawer pulls.

DESIGN FEATURES

Laptop docking station compartments in Sligh credenzas offer concealed access to power, Ethernet and data ports.

The thermostatically controlled SmartFan dissipates heat from electronic components in enclosed compartments. Its automatic heat sensor activates a silent fan. Available as an option.

The StrongArm support system allows the monitor to "float" above entertainment consoles rather than sitting on a bulky base unit. The unit accommodates monitors up to 70" in width, and articulates vertically and horizontally to accommodate viewing. It also conceals all wires and cables from view. Available as an option.

FURNITURE CARE

Avoid prolonged exposure to direct sunlight or placing plastic or rubber materials directly on the wood surfaces or leather desk tops. Avoid putting hot cups or dishes directly on the wood or leather. Nail polish remover, solvents or alcohol will damage the finish. Wipe up spills of any liquid immediately as they may otherwise mark the finish.

The beauty of Sligh wood furniture and leather top desks can be maintained by periodically using a self-cleaning furniture polish (like Pledge). Self-cleaning furniture polishes maintain luster and provide adequate cleaning under most circumstances.

Brass and other metals are protected with lacquer. Avoid using brass cleaner as it will damage the lacquer. Dust regularly, and for a more thorough cleaning use mild soap and water and dry thoroughly afterwards.

Clean leather executive desk chairs regularly with a dry cloth and vacuum the corners of the seat. Avoid using water, cleaning solvents, soaps or ammonia to clean the leather as it will harm the surface. Feel free to use a leather conditioner once or twice a year.

For fabric executive desk chairs, vacuum following a spill. If stained with oil or grease, clean with a cold rag and dish soap. Otherwise apply upholstery cleaner to the stain and follow the directions.
