

South Beach

Tommy Bahama
OUTDOOR LIVING

South Beach

Miami's South Beach is known for its high energy and cutting edge style. In similar fashion, the namesake collection from Tommy Bahama Outdoor Living makes a dramatic contemporary design statement. Strong architectural lines are crafted in dark graphite aluminum with a light surface texture. Tops and trim surfaces feature the rich natural tones of plantation grown, sustainably-sourced teak.

The indigenous color of teak is golden brown. With age, the patina turns to an elegant silver tone. The custom dark graphite finish in South Beach is designed to blend with either color tone beautifully. If you choose to oil the teak, it will retain its original color. If you prefer for it to age naturally, the silver tone offers an extremely sophisticated look.

Designs in the collection are sleek and linear, highlighted by an eye-catching play on angles. Cushioning on deep seating items is extra plush, while chairs, bar stools and the chaise feature contemporary weather-resistant sling material. Occasional tables incorporate hexagon shaped slate-gray stone inserts to enhance the design. The look is fresh and contemporary. The comfort is undeniable. The style is signature Tommy Bahama.

Tommy Bahama
OUTDOOR LIVING

For intimate entertaining spaces, the South Beach collection offers a 62-inch love seat to anchor the seating area. The two kidney pillows shown are standard, offering the opportunity to feature contrasting fabrics. Occasional chair seating features premium all-weather sling material with channeled padding for exceptional comfort. The hexagonal cocktail table features a unique architectural base design, with a teak top and stone insert.

THE FINEST MATERIALS

ALUMINUM FRAMES

Tommy Bahama Outdoor Living frames are engineered for strength and built to last using cast or wrought aluminum. Joints are precision-welded for strength and durability, then ground and polished by hand to ensure a smooth and seamless look.

CUSTOM FINISHES

Finishes on Tommy Bahama Outdoor Living products are specially formulated, with custom base coats and painstaking handwork, to achieve a unique look. Durable powder-coated finishes are baked onto the aluminum frames, ensuring that they are colorfast and highly resistant to damaging UV rays. Finishes are also corrosion and scratch resistant. The element that sets these designs apart is meticulous handwork using techniques like dry brushing, padding, burnishing and texturing which result in a product that emulates fine indoor home furnishings.

GFRC TOPS

Certain table tops are made with Glass Fiber Reinforced Concrete - a proven outdoor building material that has been in use commercially for over 35 years. It is known for its strength, weight, durability and unique thermal flexibility in all-weather environments. Please see care and maintenance instructions at TommyBahamaOutdoorLiving.com for specific details.

TEAK

Certain collections incorporate natural teak components. Tommy Bahama Outdoor Living uses only the finest quality plantation grown, sustainably-sourced teak in its designs. The indigenous color of teak is golden brown. With age, the patina turns to an elegant silver tone. Electing to regularly oil the teak will cause it to retain its original color longer. Most prefer to allow it to age naturally. Please see care and maintenance instructions at TommyBahamaOutdoorLiving.com for specific details.

PERFORMANCE FABRICS

Creating a seamless transition from an elegant interior to a stylish outdoor space is the essence of luxury living. Fabrics must have the sophisticated look and luxurious hand of residential textiles as well as performance attributes to withstand extreme outdoor conditions. The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance fabric technology, whose attributes include the following:

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology. A “performance fabric” is one with the following attributes:

- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- A tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

WEATHERGUARD™ UPHOLSTERY CUSHIONS

The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most comfortable seating in the industry. In fact, the comfort is superior to most fine indoor upholstery. The unique construction consists of (4) distinct layers.

- The inner core is 1.8 lb. density, high-resiliency foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.
- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious “crown” to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking that is thermally sealed to prevent water penetration into the layers below.

CARE AND MAINTENANCE & WARRANTY INFORMATION

Please see your authorized Tommy Bahama Outdoor Living dealer, or visit our website at TommyBahamaOutdoorLiving.com for care and maintenance instructions and warranty information.

NOTE TO FURNITURE RETAILERS:

Possession of this catalog does not constitute the authority to purchase, nor does the furnishing of this catalog constitute an offer by the Company to sell any of the items contained herein. Lexington Home Brands (“Lexington”) reserves the right to alter specifications or discontinue items at any time without advance notice. All price lists and catalogs remain the property of Lexington, and may not be copied or in any way duplicated without the express written consent of the Company.
