The design narrative for refined outdoor living begins with inviting looks that blend stylish silhouettes, unique materials and vibrant fabrics in a way that draws the eye and projects the personality of the owner, making the space an irresistible gathering place for family and friends.

Featuring a distinctive V-pattern of all-weather woven wicker, aluminum frames in a custom aged iron finish and contemporary Weatherstone tops, Ocean Terrace offers a diverse portfolio of dining, deep seating and occasional designs for both small and large-scale venues.

Woven wicker is finished in a rich driftwood gray coloration, offering a sophisticated neutral palette as a foundation for layering dramatic color stories. Choose from a remarkable assortment of performance fabrics for a look that is chicly casual and understatedly elegant.

The clean modern lines of the 95-inch Ocean Terrace sofa feature a gentle sloping track arm and exceptional seating comfort. Matching chairs, on the opposite page, are available as a stationary design or as a swivel glider.
If you’re looking for additional plush seating to anchor your outdoor space, Ocean Terrace features a stylish 40-inch square cocktail ottoman that also offers you the chance to add another correlating fabric pattern to the setting.
The 54-inch diameter Ocean Terrace fire pit pairs a beautiful Romania Gray veneered marble top with a woven wicker base. The unit features a push button start with a flame control knob and burns either liquid propane or natural gas.

The Ocean Terrace metal dining chairs are smaller in scale than the all-wicker version shown on page 26. The aluminum frame is finished in a textured aged iron finish giving the piece a custom look and adding another design element to the silhouette.
The bistro table is shipped with a custom metal insert, shown installed on the opposite page, that increases the height of the table to accommodate bar stools seating. Shown below is the bistro without the insert paired with counter stools.
FINISHES

A contemporary V-pattern of all-weather wicker features a custom weave, blending three different color tones that add depth to the rich driftwood gray finish.

Custom Weatherstone tops, which exhibit exceptional durability in all weather conditions, are finished to look like finely honed limestone.

The surface of the Ocean Terrace fire pit features an elegant expanse of Romania Gray marble. Each veining pattern will be unique to that piece.

3100-910NGK  Natural Gas Conversion Kit  
240W x 24D x 11H in.  
Standard Features: This conversion kit is comprised of a natural gas hose and fittings for both ends, and must be installed by a professional installer to convert the 3900-920FG fire pit from the factory setup of liquid propane to natural gas. See instructions manual shipped with the fire pit for directions.  
WARNING: Significant personal injury may result from improper installation – must be done by a professional installer.

3900-920FG  Cypress Point Ocean Terrace  Gas Fire Pit (Dual Source)  
54 dia. x 25.5H in.  
Standard Features: Includes a push button start with a flame control knob and decorative glass rocks to cover the burner. The unit is designed to burn on liquid propane or natural gas. Factory setup is for liquid propane – tank not included.  
Shown on page 11
The Final Touches program is a collection of options that can be selected to create your custom outdoor upholstery at NO CHARGE.

Simply choose your seat fabric to determine the graded price, then select any combination of the following options to create your unique custom outdoor upholstery:

Contrast with FABRIC....using any fabric Grades A-B-C-D-E
- on both sides of standard throw or kidney pillows
- on one side of standard throw or kidney pillows
- on back cushions (where standard)
- on kidney pillow borders

Contrast with WELT....using any fabric Grades A-B-C-D-E
- on standard throw or kidney pillows
- on back cushions
- on seat cushions

Contrast with TRIM....on standard throw or kidney pillows
- add outdoor decorative fringe
- add outdoor decorative cord

Your choice... no charge. Final Touches No Charge Options apply to all custom outdoor upholstery frames. When using a seat fabric in Grades F-G-H, contrasting fabrics and welts at the same grade or below are included in the base price. However, if the seat fabric is Grades A-B-C-D-E, contrasting fabrics and welts in F-G-H require an upcharge. See dealer for pricing.
THE FINEST MATERIALS

CAST ALUMINUM FRAMES
Tommy Bahama Outdoor Living frames are engineered for strength and built to last using endurance cast aluminum. Joints are precision-welded for strength and durability and then ground and polished by hand to ensure a smooth and seamless look.

ALL-WEATHER WICKER
Tommy Bahama all-weather wicker is crafted from the finest man-made materials and custom designed in exclusive colors, shapes, sizes and patterns to our exacting standards. It is woven by hand, capturing the timeless and classic look of natural wicker or rattan, with exceptional durability. The material is made of high-density polyethylene, a recyclable material with great tensile strength. It is highly resistant to UV exposure, mildew, fading, staining, stretching and cracking. Tommy Bahama all-weather wicker is easy to maintain by cleaning with a mild solution of soap and water.

CUSTOM FINISHES
Finish on Tommy Bahama Outdoor Living products are specially formulated, with custom base coats and painstaking handwork, to achieve a unique look. Ultra-durable polyester resin powder-coated finishes are baked on cast aluminum frames, ensuring that they are colorfast and highly resistant to damaging UV rays. Finishes are also corrosion and scratch resistant. The element that sets these designs apart is meticulous handwork using techniques like dry brushing, padding and burnishing that result in a product that is virtually indistinguishable from fine interior home furnishings, yet built to endure the elements.

PERFORMANCE FABRICS
Creating a seamless transition from an elegant interior décor to a stylish outdoor space is the essence of refined living today — and blurring the lines between indoor and outdoor living lies in merging beauty and durability. Fabrics must have the sophisticated look and luxurious hand of residential textiles, plus the performance technology to withstand the most extreme outdoor conditions.

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology. A “performance fabric” is one with the following attributes:

- Fibers that are solution-dyed to the core, rather than simply on the surface
- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- An extremely tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

The Tommy Bahama Outdoor Living program is unique in the industry for its wide-ranging assortment of exceptional performance fabrics and correlating trims, offering the ability to customize upholstery whose impeccable tailoring, seating comfort and designer looks are equally at home, indoors or out.

WEATHERGUARD™ UPHOLSTERY CUSHIONS
The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most ultra-comfortable seating in the industry. In fact, the comfort is superior to the cushioning on most fine indoor upholstery. The unique construction consists of (4) distinct layers:

- The inner core is a 1.8 lb. density, high-cushioning foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.
- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious “crown” to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking with a Tommy Bahama watermark to verify its authenticity. This ticking is thermally sealed to prevent water penetration into the layers below.

Seating comfort is one hallmark of the Tommy Bahama Outdoor Living program. The exclusive WeatherGuard™ cushion is your assurance that the quality, look and longevity of the cushioning will match its unsurpassed comfort.
