ARTISTICA

— HOME —

At Artistica Home, we believe that design is an art...and that extraordinary design emerges from a journey that begins with inspiration, is nurtured by collaboration, strengthened by creative innovation, and finally emerges as something totally remarkable.

Our passion for designing beautiful home furnishings is based on the belief that your home is the ultimate reflection of personal style, so our assortment is carefully curated and decidedly chic. The aesthetic has, at its foundation, three design imperatives - an eye for timeless historical design references, the relentless pursuit of unique materials to use in our styling, and a resolute commitment to craftsmanship and custom artisan finishes.

History is important, because we believe the most engaging contemporary designs are born of classic elements creatively reimagined. Materials are important because they imbue innovative designs with personality, and a bespoke sense of customization.

Finishes are important because they draw the eye, invite the touch, and dress the lines of each silhouette.

We're here to inspire you – offering captivating home furnishings that allow you to convey your personal style through home décor. We hope you enjoy Volume One of our ever-expanding portfolio, and come away sharing our belief that furniture design is indeed an art.

COHESION FINISH PROGRAM - 2057 SERIES/HAIKU

Mahogany solids and veneers with hand wire brush graining.

Cohesion features three distinct wood finishes

– Bianco, Grigio, and Marrone – all boasting a heavy wire brushing on mahogany solids and veneers, and each with a dry, silky hand. Design motifs from three centuries are updated and casualized, with over 30 unique styles capturing the spirit of traditionalists as well as those embracing light, airy, contemporary living.

Each finish grants a given silhouette a different lifestyle personality, with textural colorations highlighting a natural palette of neutrals including cool grays, linen whites and warm, rich wood tones.

In addition to a wide range of chairs and stools available in all Cohesion finishes, we also offer a selection of companion upholstered chairs and stools married to specific finishes, pages 82-83.

METAL DESIGNS PROGRAM

Our namesake collection of hand forged iron styles, in your choice of four custom finishes

Many years ago, in a small workshop in downtown Los Angeles, we built our first iron occasional table. Shapely, beautiful, and forged entirely by hand from solid iron, it became the touchstone for everything we do.

For over four decades, Artistica has been renowned for our craftsmanship in forging and finishing iron furniture designs. The ages-old hallmarks of fine ironwork begin with the fire of the forge and the power of the anvil and hammer, and every piece we produce reflects the skills of master blacksmiths.

These sculptural forms are then carefully finished in four distinct colorations, incorporating up to a dozen steps of hand application, building up multiple layers of texture and directional dry brushing.

Each beautiful Metal Designs finish was developed to reflect this level of work by hand, and carries the unique qualities of the artist's brush.

Built entirely of solid iron, these designs incorporate a heavy hand hammering that shows the irregular strike marks of the forge across each iron surface, emphasizing the authenticity of our ironwork techniques. The top apron is comprised of three separate ovals welded together, adding both substance and design detail to these versatile styles.

Mahogany, woven abaca

Our Morro and Capitola chairs and stools are transitional styles with a focus on the organic texture and casual appearance of woven abaca fibers in their natural coloration, and mahogany solids in a light wood tone. Please see pgs. 254-255 for important information about abaca and natural woven materials. Also shown is the Shane Spot Table and the Impresario Console.

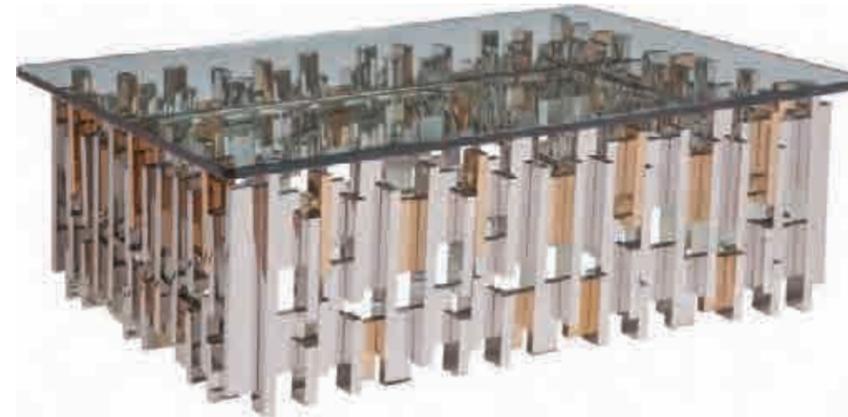

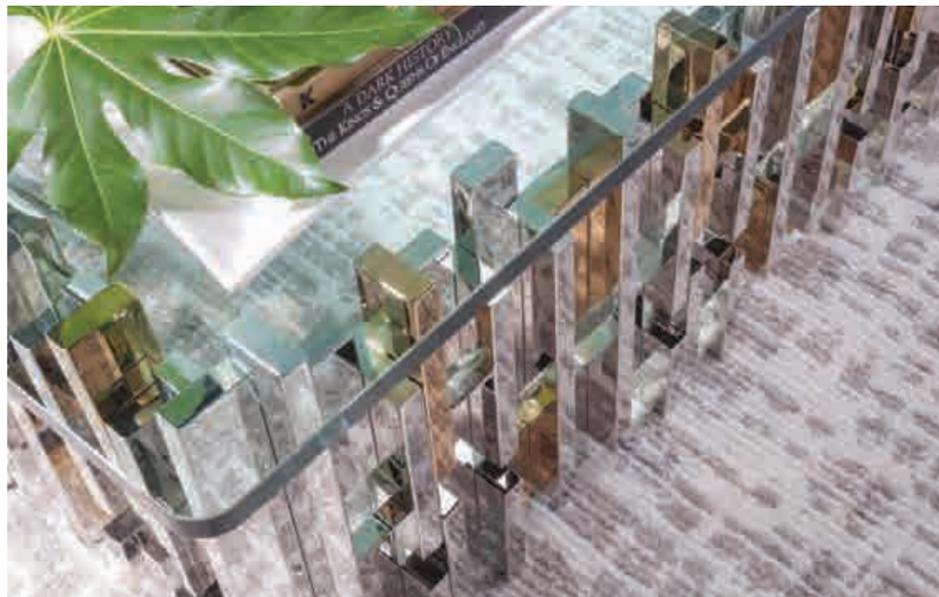

Contemporary asymmetrical designs crafted from stainless steel and brass

The Cityscape console table features six-sided blocks of stainless steel in a three-dimensional intersecting pattern, highlighted by select portions accented in a warm brass finish. The result is a design with remarkable depth and brilliant shimmer, especially when viewed through the glass and into the decor. Cityscape dining tables (pgs. 124-126). Please see pgs. 254-255 for important information regarding stainless steel and polished metal finishes.

Our stunning Cityscape silhouettes are remarkable achievements in metalwork intended to evoke the emotion of great skylines and city views. They are built completely in stainless steel, with select elements electro-formed in a warm, vintage brass, and completed with 3/4" thick polished edge glass tops. *Please see pgs. 254-255 for important information regarding stainless steel and polished metal finishes.*

2091-973 Prefect Hall Chest
42W x 18D x 36H in.

Based on a 1940's antique, these late Art Deco-era designs are dressed in beautiful quartered zebrano in a rich brown finish that allows the iridescence of the veneers to truly stand out, and are then crowned in exceptional period hardware. The drawers feature soft-close drawer guides, and there are two adjustable shelves behind each door. *Please see artisticahome.com for additional room and detail images.*

2062-907 Penelope Entertainment Credenza
66W x 18D x 30H in.

2062-973 Penelope Hall Chest
42W x 20D x 36H in.

These classic Regency silhouettes with overlay moldings are brought into the 21st Century by the dark slate gray we've applied to the flat cut White Oak veneers, with subtle gray dust liming, and made remarkable by the stunning over scaled hardware in bright nickel. The chest features soft-close drawer guides, and the credenza includes six adjustable shelves behind the doors. Penelope Desk (pgs. 230-231). Please see artisticahome.com for additional room and detail images.

Symmetry and balance are fundamentals of Regency period design, and our over scaled Penelope hardware is no exception, featuring geometric Greek key pulls mounted on back plates in a mirror image of one another.

Penelope's linear forms are dressed in white oak in a ceruse sandblast technique, with light gray liming offsetting the primary slate coloration. The finish takes on the colors of its surrounding, ranging from anthracite to charcoal gray depending on the light exposure. Penelope Desk (pgs. 230-231).

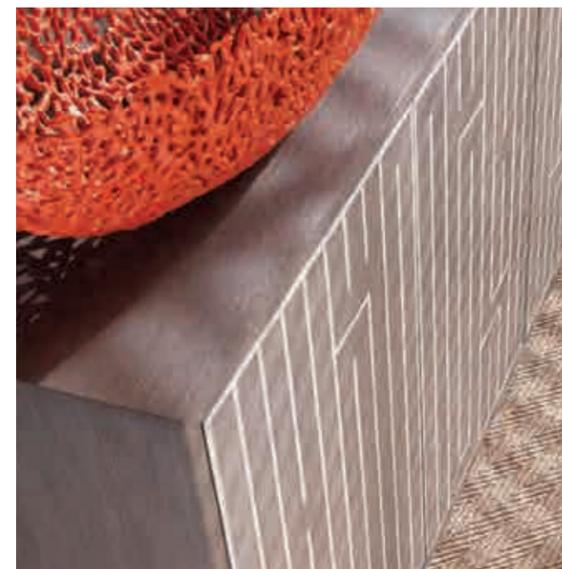

2061-907 Solaris Media Credenza
68W x 18D x 36H in.

A Mid-Century French antique reproduction for use as a high buffet or media credenza, our Solaris design features white oak solids and cerused veneers in a dramatic sunburst pattern. Doors include touch hardware, two adjustable shelves behind each door, and wire management and component venting.

**2026-907 Mercury
Media Credenza**
67W x 18D x 30.5H in.

This simple, modern form becomes exceptional when dressed in the complex geometric pattern in capiz shell inlay, contrasted against quartered white oak veneers in a cool gray finish. The doors feature touch latch hardware, and conceal four adjustable shelves, wire management, and component venting. *Please see pgs. 254-255 for important information regarding capiz shell and other exotic materials.*

With quartered white oak veneers contrasted against heavily bleached olive ash burl trim, our Mercury Etageres are a modern take on the traditional bookcase or room divider. Please see artisticahome.com for additional room and detail images.

FOSSILIZED MATERIALS

Petrified wood, Fossilized Clam and Coral

Petrified wood is a crystallized glass-like fossil of a tree, with the appearance of the wood structure preserved. The fossilization process begins when trees become buried in sediment. Mineral-rich water passing through the sediment carries away the decaying wood molecules and replaces them with minerals - usually silica. Over thousands of years, the minerals crystalize, producing a metamorphic stone fossil with the appearance of wood. Fossilized clam shell and coral (coraline) are formed in much the same fashion, retaining much of their original appearance after being encased in silica.

The South Pacific and Indonesia are the most volcanically active regions in the world. These tables are produced with specimens hand-picked from the ground surface, not mined, and their collection does no harm to the environment. *Because these tables are made from rare collected petrified specimens, each table top is guaranteed to vary greatly in color and shape, and every table top is completely unique.*

LEAF FINISHES

Our leaf and foil finishes utilize precious metals that have been refined to very fine sheets, and then hand applied to various surfaces. These special finishes will show the hand work necessary to achieve their lustrous appearance.

STONE SURFACES

Travertine, Marble, and Onyx

These materials are metamorphic rocks that are quarried from various regions of the world. While we strive to classify these materials into consistent color ranges, certain stones —especially travertines and onyxes - can vary greatly in coloration across a single slab. *As products of nature, our stone tops will vary in coloration from piece to piece.*

SHELL MATERIALS

Capiz, Troca, and Turritella Seashells

We utilize various portions and slices of these three seashells in a range of Artistica products, as both inlays and veneered surfaces. *As products of nature, they will vary in appearance and coloration from piece to piece.*

CRUSHED BAMBOO

Crushed bamboo veneers are created by first slicing bamboo poles, and then flattening their curved surfaces before veneer application to a substrate. The crushing process creates fine lengthwise cracks that add to the organic appearance of this versatile material. Though these cracks do not compromise the strength of the surface material, they are to be expected due to the structural properties of bamboo.

POLISHED METALS

Stainless Steel and Brass

Our bright metal surfaces are buffed by hand using descending grades of polishing abrasives, ultimately resulting in a mirror-like appearance. Small polish and other surface marks are to be expected.

EXOTICS

Snake and Fish Skins

Like the world of fashion, we utilize these special and highly-sought materials to make bold style statements in our accent furniture. *As products of nature, these materials will vary in appearance from piece to piece.*

WOVEN MATERIALS

Abaca, Raffia and Lampacanay

We use a variety of natural fibers in our designs, both as structural weaves and as veneers. *As products of nature, these materials will vary in appearance from piece to piece.*

ANTIQUe MIRROR

We use several different styles of hand-distressed antique mirror in our pieces. *Because these mirrors are aged by an artist's hand, they will vary in appearance from piece to piece.*

COHESION FINISH PROGRAM INDEX

The Cohesion Program includes a compendium of designs, ranging from traditional to modern, that are apropos for every room of the home. Each silhouette is offered in your choice of three custom finishes – Bianco, Grigio and Marrone. Pieces are expertly crafted from mahogany solids and veneers with surfaces that are wire-brushed by hand, creating textures that add an artisanal feel to the designs.

ARTISTICA METAL DESIGNS INDEX

The Artistica Metal Designs Program is a remarkable assortment of unique iron silhouettes – hand forged by artisans whose passion is expressed in sophisticated detailing and superb craftsmanship. Each design is offered in four custom finishes – Antique Copper, St. Laurent, Renaissance, and Argento. The finishes, meticulously applied by hand, take as many as fourteen steps to execute, yielding an extraordinary look.

-43 ANTIQUE COPPER
Dark antique tones with directional hand graining

-44 ST. LAURENT
Rich, natural iron tones with touches of light gesso and gold highlighting

-45 RENAISSANCE
Deep antiqued gold with red undertones

-46 ARGENTO
Antiqued silver with gold undertones
