## CROSS X EFFECT

Today's home office and media rooms are becoming increasingly design centric, creating a fresh opportunity for self-expression in styling. At the same time, technology has eliminated the challenge of wire management, allowing these rooms to be transformed from utilitarian to inspirational spaces.

Crafted from quartered white oak veneers in a rich mocha coloration, Cross Effect offers an innovative fusion of contemporary and industrial design, featuring striking metal bases and custom metal accents in bronze-finished silver leaf. Asymmetrical styling offers a slight urban edge to the look, enhancing its modern aesthetic and sophisticated appeal.

## Features and Finish

### Delshire — 190

Cross Effect features contemporary designs crafted from quartered White Oak veneers, finished in a rich mocha coloration. Metal bases and metal accents feature bronze-finished silver leaf, and custom hardware is finished in aged bronze.

### StrongArm® 9000-1-BL

The Sligh StrongArm® TV mount is designed to allow monitors up to 70" in width to float above the entertainment console rather than sitting on a bulky base unit. The unit swivels and articulates to accommodate any viewing angle and incorporates wire management without disturbing the integrity of the wall behind the console.

### SmartFan® 9001-1-BL

The Sligh SmartFan® is a thermostatically controlled ultra-quiet fan that dissipates heat generated by electronic components in enclosed compartments. Its heat sensor automatically activates the unit when temperatures exceed a pre-programmed tolerance level.

### SmartEye®

The Sligh SmartEye® is a small infrared signal receiver. The unit remotely controls electronic components within the piece using a repeater signal, eliminating the need for glass doors or open compartments.

## Caring for Your Furniture

Avoid prolonged exposure to direct sunlight or placing plastic or rubber materials directly on the wood surfaces or leather desk tops. Avoid putting hot cups or dishes directly on the wood or leather. Nail polish remover, solvents or alcohol will damage the finish. Wipe up spills of any liquid immediately as they may otherwise mark the finish.

The beauty of Sligh wood furniture and leather top desks can be maintained by periodically using a self-cleaning furniture polish (like Pledge). Self-cleaning furniture polishes maintain luster and provide adequate cleaning under most circumstances.

Brass and other metals are protected with lacquer. Avoid using brass cleaner as it will damage the lacquer. Dust regularly, and for a more thorough cleaning use mild soap and water and dry thoroughly afterwards.

Clean leather executive desk chairs regularly with a dry cloth and vacuum the corners of the seat. Avoid using water, cleaning solvents, soaps or ammonia to clean the leather as it will harm the surface. Feel free to use a leather conditioner once or twice a year.

For fabric executive desk chairs, vacuum following a spill. If stained with oil or grease, clean with a cold rag and dish soap. Otherwise apply upholstery cleaner to the stain and follow the directions.
