The Veronica series features a contemporary shelter design highlighted by a captivating play on angles. The sloped arms convey a welcoming appearance by gently tapering from back to front. The arms also taper from the base to the arm rest. The chamfered upholstered base is particularly noteworthy due to the profile being matched on every side. This is a silhouette whose beauty can be appreciated from any angle, making it an ideal choice for floating in a room setting.

The Rita series was specifically designed to make a statement – offering grand scale from a visual perspective while maintaining a conventional footprint. This is achieved by using generous 10-inch track arms, extra thick seat cushioning and standard kidney pillows for a layering effect against the back pillows. The back rail design has a narrow profile to lessen space requirements within a room.
